ACCURINT

When appropriate, Accurint (www accurint.com) is one of the tools that can be used to locate a defendant. Many times when the defendant's name is typed in, it may also show their SSN or their date of birth, along with their most recent addresses. The more information that is typed into the Accurint search engine (name, date of birth, etc.), the more narrowed down the search is, which makes finding the correct person easier.

Manage Risk With More Intelligence

Accurint® is the most widely accepted locate-and-research tool available to government, law enforcement and commercial customers. Its proprietary data-linking technology returns search results in seconds to the user's desktop.

Key features include:

- People Search... locates neighbors, associates and possible relatives.
- Phones Plus... track down phone numbers not typically available to increase your chances of finding your subject. Access over 50,000,000 non-directory assistance records, including cell phone numbers.
- People at Work... links more than 132 million individuals to businesses and includes information such as business addresses, phone numbers, and possible dates of employment.
- Relavint™... visually links individuals with businesses, addresses, relatives and vehicles.
- Advanced Person Search... helps find individuals when only old or fragmented data is available.

LexisNexis® is an industry leader in the responsible use of data and protection of individual privacy. Accurint, using public records and non-public information, provides invaluable fraud detection and identity solutions for the public and private sectors. Accurint helps safeguard citizens and reduces financial losses.
