Offender Tracking Information System (OTIS)

This site provides Internet users with information about a wide variety of offenders who are, or were, under the supervision of the Michigan Department of Corrections.

The Offender Tracking Information System (OTIS) contains information about more than 300,000 prisoners, parolees and probationers.

OTIS does **NOT** contain:

- Information that is exempt under the Michigan Freedom Of Information Act.
- Information about anyone who has been arrested and convicted but not yet sentenced.
- Information about prisoners in county jails or city lockups, or about offenders who were sentenced to jail only. Jails are operated by counties. State prisons are operated by the MDOC.
- Photographs of offenders who left the system before electronic photographs were taken or who are in the system but have not yet been taken.

What is OTIS? What are the terms and conditions of its use?

OTIS is intended to offer information to the public that can then be verified through the Michigan Department of Corrections (MDOC), Michigan Courts, the Michigan State Police or other law enforcement agencies. A search of OTIS will provide information about offenders previously or currently under the jurisdiction or supervision of the MDOC. A search result will provide information about any offender who is, or was, in a Michigan prison, on parole or probation under the supervision of the MDOC, has transferred in or out of Michigan under the Michigan Interstate Compact, or who has escaped or absconded from their sentence.

OTIS does not exclusively display information on convicted felons. It provides information on felons and misdemeanants who are, or were, under the supervision of the MDOC.

Clicking on the Michigan Complied Law number (MCL #) will take you to the Michigan Legislature Web site where the actual statute the offender was convicted of violating is presented. One statute may contain varying degrees of criminal behavior with multiple penalties that may fit the definition of both a felony and misdemeanor.

The Michigan Legislature requires the MDOC to keep offender information on OTIS even after the offender is no longer under the supervision or jurisdiction of the MDOC. **Information is only removed from OTIS if the conviction is set aside, or expunged, by the sentencing court or by operation of law.** At the present time, only offenders sentenced to prison have their images displayed on OTIS, and these images are not updated after the offender leaves a Michigan prison.

While the information provided on this Web site is public record, some offenders have been sentenced under Michigan statutes that preclude disclosure of their conviction information to the public. That information does not appear in this database.

The Department of Corrections and the State of Michigan offer this information without any express or implied warranty as to its accuracy. The information on the database may not accurately reflect the most current location, status, projected release date or other information regarding an offender. Although every effort is made to maintain accurate records on this database, no action should be taken as a result of information found herein without confirmation with the MDOC, the Michigan State Police through the use of their Internet Criminal History Access Tool (ICHAT) or a review of the court file. The Michigan State Police ICHAT can be found at: http://mi-mall.michigan.gov/ichat.
