Hello there.

I'd like to encourage other Dispute Resolution Centers to attend the Dropout Challenge Summit in Dearborn on August 11<sup>th</sup> (see the flier attached.) I know that Oakland is attending, but I didn't see other Centers on the most recent registration.

Michigan's Children is partnering with the Michigan Department of Education; Michigan Association of Secondary School Principals; Michigan Department of Energy, Labor & Economic Growth; Michigan Association of Intermediate School Administrators; REL Midwest; and Great Lakes East Comprehensive Center to convene the Summit, "Michigan State Dropout Prevention Summit: Moving Students Up Not Out," on August 11-12, 2010 at the DoubleTree Hotel in Dearborn.

The intent is to recruit educators and community partners to attend.

I really think this will be a good conference and it will be a great place for Resolution Centers to talk with education partners about how they can better work together AND how they can be working into existing school improvement planning efforts...

Let me know if you've got any ideas about how to better promote through that network.  
Thanks!!

Michele
