You may want to know...

- Create a scheduling order or process or review your current scheduling order or process to ensure that it conforms to the requirements of the Permanency Indicators Report.
 - Sample orders may be found on the Michigan Supreme Court website.
 - Make modifications to fit your court's needs

- Adjourning one hearing can cause delays for the entire report.
 - Several reports look for the removal date, not the last hearing date
 - e.g. An Adjudication hearing that is adjourned over several months may cause the Initial Dispositional Review Hearing to be delayed as well

- Multiple **active** petitions on a Neglect/Abuse case
 - Current programming allows a child to have more than one active petition added per case and suffix
 - This will cause problems with recording the hearings for each petition. (See note on page 64)
 - Changes will be made to allow one *active* petition per child

- When a minor is *dismissed from court jurisdiction* the applicable Permanency Achieved type *may* also need to be entered.
- A child's case/petition may include multiple rows for Permanency Achieved

- Current data on a child's petition may not be accurate.
 - JIS will create the history file based on current events.
 - Courts should review their open cases to ensure that the appropriate codes have been added for each child's petition.

- Required hearings that were not completed by the end of the year will show up on the report with no *Reason for Delay* code.
 - Courts will need to add an event indicating that the required hearing was not held by 12/31
 - e.g. 182 Review Hearing should have been held by 12/15/2013, however it is not scheduled until 1/15/2014
 - Court must enter an event dated 12/31/2013 of STN – *Statutory Rev Hrg NOT COMPLETED as of 12/31* with a reason for the delay
 - This will be recorded on the PIR report as Not Completed with the reason for the delay.
