HOW TO OBTAIN ASSISTANCE WHEN USING THE TRIAL COURT SYSTEM

Trial Court Systems (TCS) has provided you with this manual to assist you in the basic day-to-day processing of your cases. However, the manual may not address all of the situations that occur in your court. Should you require further assistance, you may contact a Technical Service Representative through the TCS Helpdesk. You can reach a TCS team member by calling 1-888-339-1547 and select 4 on your keypad. This will route you to the individual who is taking calls for TCS.

Technical Service Representatives are available to assist you with your problems, questions, concerns and requests for enhancements to the system. Please do not hesitate to call.

You may also reach TCS help desk by e-mail at TCSHELPDESK@courts.mi.gov.

In addition, you may contact the Director of Judicial Information Systems

Mr. Marcus F. Dobek
Director
Judicial Information Systems
925 West Ottawa
P.O. Box 30048
Lansing, MI 48909

Please Note: *If you are having a windows problem or are unable to connect to the AS/400 from your P.C., you should contact your Data Processing/Information Systems personnel.*

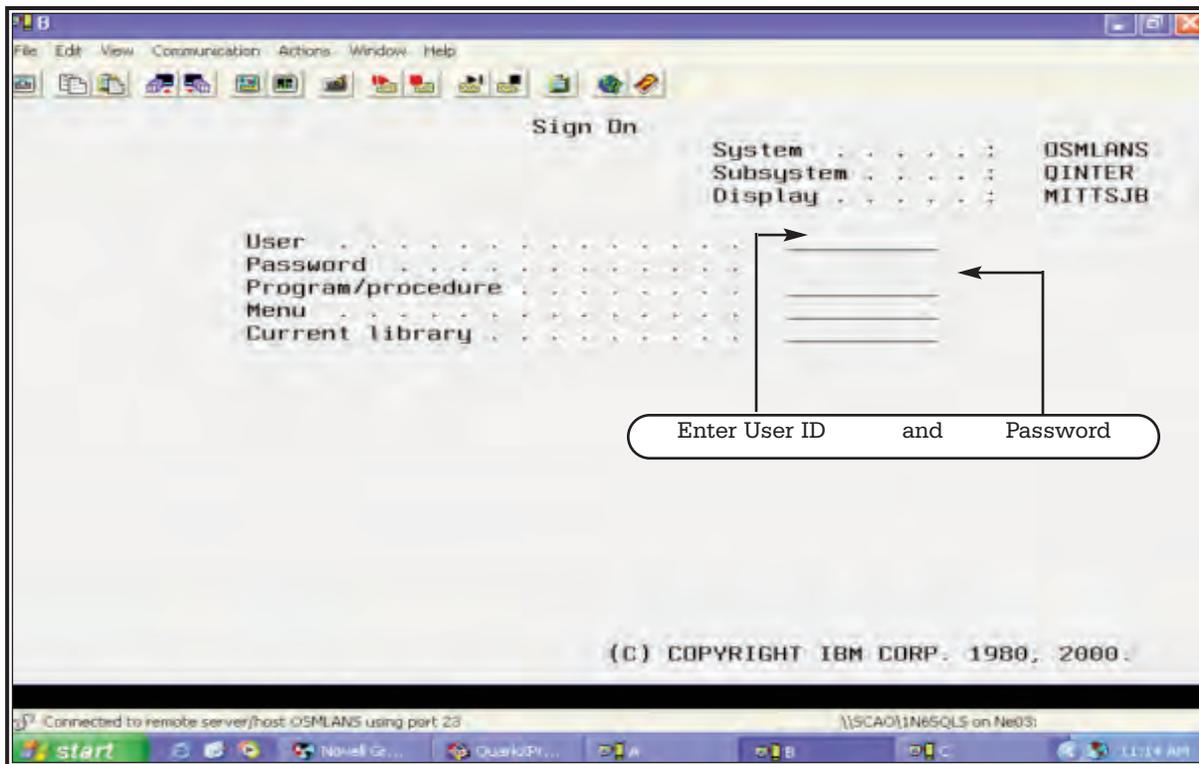

Accessing the Trial Court System

Sign-on Procedure:

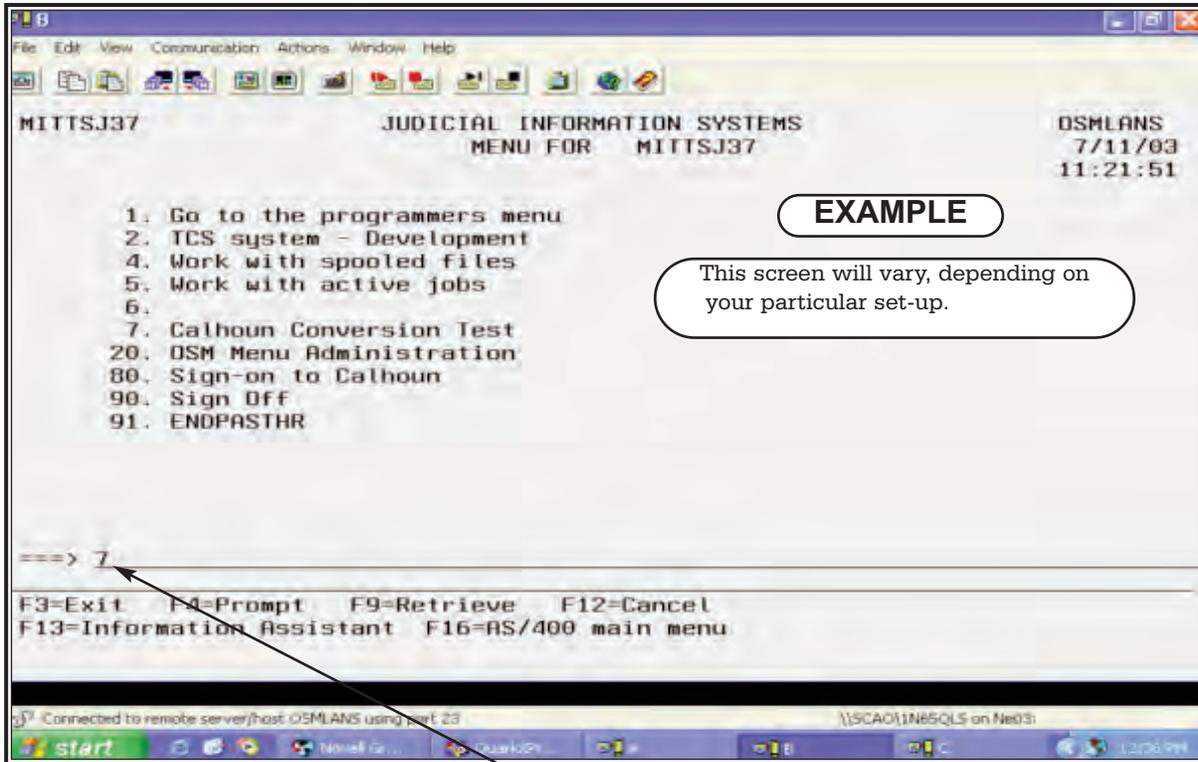

To access the Trial Court System, a User ID is required. The User ID identifies you to the computer as an authorized user of the Trial Court System. A password protects your User ID from unauthorized use by other persons. Each individual will select their own password. It is recommended that you select something that is easy to remember, as both the User ID and password are required to sign on.

If you are not already signed on, your workstation will display the screen shown below. Enter your User ID in the **User** field. The User ID will display as you type. Next, enter your password in the **Password** field then press the  key. For security purposes, this field will not display as you type. Leave the remaining fields blank.

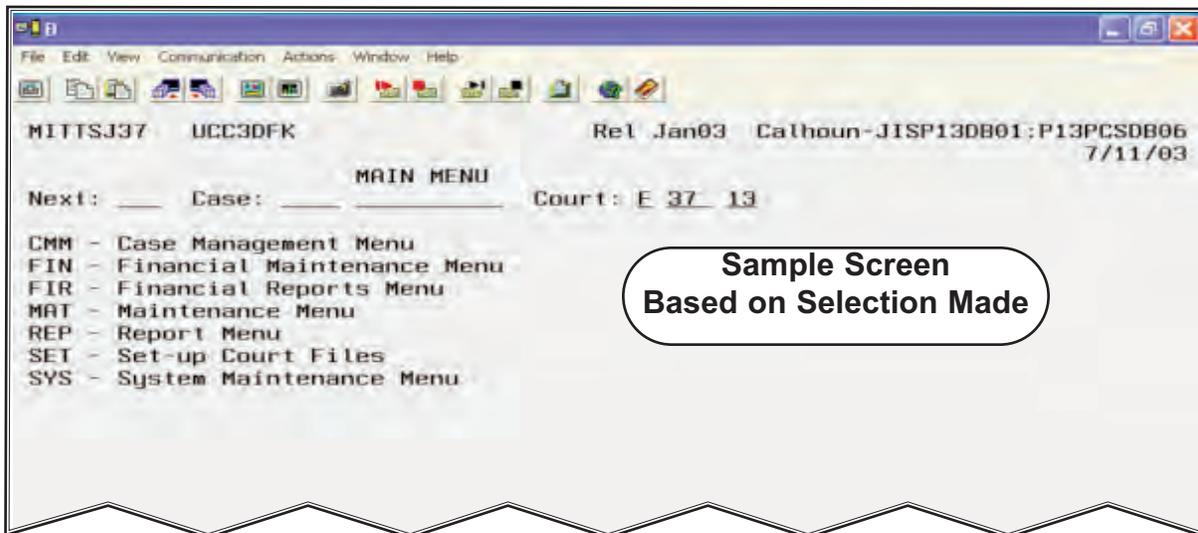

If you receive an error message, verify your user ID and password and re-enter them. Should you continue to receive an error message, you may contact your *Data Processing/Information Systems* personnel, or contact TCS Helpdesk.

After you press the  key, you will be taken to the **Menu for <Username>** screen which has been created for your sign-on.

From the **Menu** screen, enter the number of the menu you want to be taken to and press . You will be taken to the screen that you selected.
