

Medication Assisted Treatment in Context

This training series examines substance use disorders as a public health issue. Experts in the field will introduce Medication Assisted Treatment (MAT) as part of a holistic approach to the treatment of substance use disorders. This will be looked at through the lens of the Native American/Tribal community's current needs and resources, with a focus on Michigan.

See www.mittrainingcenter.org for information about continuing education credit.

July 15
8-9:30 AM Medication Assisted Treatment as an
Evidence-Based Treatment Option

Session One

Speaker: Dr. Cara Poland

This session will provide an introduction to the different MAT options, including a look at the advantages and disadvantages of MAT and the evidence-base supporting this treatment approach.

Aug. 24
12-1 PM Substance Use Disorders as a Public Health Issue:
Resources in Michigan

Session Two

Speaker: Dr. Kathleen Regan

This session will include an overview of substance use disorders, specifically focusing on opioid misuse. Learn about opportunities and resources for action in Michigan, especially related to the state's tribal communities.

Sept. 15
8-9:30 AM Holistic Treatment of Substance Use
Disorders: MAT and Beyond

Session Three

Speaker: Dr. John Hopper

This final installment of the series will focus on using MAT within an integrated health treatment model and how to use MAT in regards to monitoring, pain management, and with other medications.
