Dr. Jessica Parks, Trial Court Services Deputy Director, was presented with an award for being a MATCP Hero in March of 2016 at the MATCP conference. In response to this award, Dr. Parks was quoted as follows:

While I appreciate the congratulations, the team deserves the award. Day in and day out, the problem-solving courts team works to help the courts and their customers help people in need in Michigan. I might be the face of that effort to the MATCP board, which results in the recognition being directed toward me, but Carol, Dana, Dian, Marie, Lauren, Thomas, and Andrew are the heart and soul of problem-solving courts, the words of wisdom that guide me daily, and the best team of professionals I've ever known.

Congratulations to our problem-solving courts team!
